

TRUCK Garden

A community garden on wheels! York Parks and Recreation is offering the opportunity for the community to have a community garden on wheels. We'll learn how to plant and care for a garden. The goal is to sell the produce at the York Farmers Market. It will be a complete cycle of learning: Plan, plant, pick, market, sell. This program is free to the public. Anytime you see the truck around town, make sure you stop by, pull a weed, and see what veggies are growing!
